About Me

As a Full Stack Developer with 2 years of experience, I specialize in JavaScript technologies, with a focus on product development and deployment at Cotyledon Technologies Pvt Ltd. Skilled in both back-end and front-end development, I excel in solving technical challenges and managing teams. Passionate about JavaScript and its frameworks, I have a proven track record of developing and deploying web applications from scratch.

Professional Experience

Full Stack Developer | Cotyledon Technologies Private Limited

2022,Dec - Present

Pick Your Slot - key Product

- Led the development and deployment of "Pick Your Slot," a user-friendly web and mobile application that became a key product for the organization, while managing a team of web developers.
- Strong background in full-stack development, with proficiency in JavaScript, React.js, React Native, HTML, CSS, and AWS Deployment to ensure seamless product delivery, with a strong focus on timely issue resolution and application performance.

6D Works Project - LMS

- Currently working on 6D Works, an open-source LMS for courses and certificates.
- Led my team to developed the front-end using React.js, MUI, and TinyMCE for dynamic templates, and the back-end with Node.js, Express, Sequelize, and MySQL for data management and server-side functions.

AirBuzz Project - CMS

- Led the development and deployment of "AirBuzz," a dynamic CMS using the MERN stack (MongoDB, Express.js, React.js, Node.js), optimizing performance and scalability.
- Directed a team to produce clean, reusable code, ensuring high-quality applications and successful deployment on Azure.
